

ALSTASHINE

Alkaline Coil Cleaner & Brightener
for AHU, FCU, A.C, Car Condenser etc.

ALSTASHINE is a non-acid liquid cleaner and brightener for complete removal of dust, dirt, greasy soils, carbon deposits and grime on the aluminum fins and copper coils of AHU, FCU, Air Conditioners, Car Condenser and Radiator, Air Cooled Chillers, Air Cooled Condensers, Air Cooler Tube Bundle etc. It can be used manually with normal, hydraulic or atomized sprayer. ALSTASHINE rapidly cuts organic deposits and disinfects the system to circulate fresh and healthy air.

ALSTASHINE has self foaming characteristics which starts immediate foaming when it comes in contact with dirt, enabling excellent penetration of the product into the coils for complete cleaning that instantly shows multiple increase of CFM/Air Velocity

Physical and Chemical Properties

Appearance	Amber color viscous liquid
pH	>11.5
Solubility	Completely soluble in water
Acidity (in %)	Nil

Dosage and Application

ALSTASHINE should be ideally used by spray method at diluted ratio of 3-5 parts with water (depending upon the severity of the soil) and allowing a product contact time of 10-15mins for cleaning by self-foaming of the product. Rinse with plenty of potable water till the foam or bubbles are completely washed off.

Like any other chemical or chemical compound, ALSTASHINE also requires certain safety measures when used by spray method, such as covering of mouth and nose, wearing safety goggles and hand gloves.

Handling and Storage

ALSTASHINE should be stored in original containers in cool and dry place, away from sources of heat and direct sunlight. Please refer Label for more details.

ALSTASHINE

Key Features and Benefits

Excellent Wetting

ALSTASHINE lowers the surface tension or interfacial tension of dirt & allows good penetration of product for effective cleaning

Fortified with Corrosion Inhibitor

ALSTASHINE is fortified with Corrosion Inhibitor that prevents any sort of metal attack and prevents corrosion.

100% Acid Free

ALSTASHINE does not contain any acid. It is metal friendly but needs good rinsing with water after cleaning is complete.

Self Foaming

A very important feature of ALSTASHINE is its ability to foam instantly when it comes in contact with the soil.

Dispersing ability

ALSTASHINE breaks up the solid soil to fine particles, thus aids in quick removal of soil

Emulsifying

It removes greasy stubborn soils and carbon deposits easily by emulsification.

Packing

ALSTASHINE is packed in various pack sizes of 1.5kgs/6kgs/25kgs/35kgs HDPE jars.
